

CIPCOH

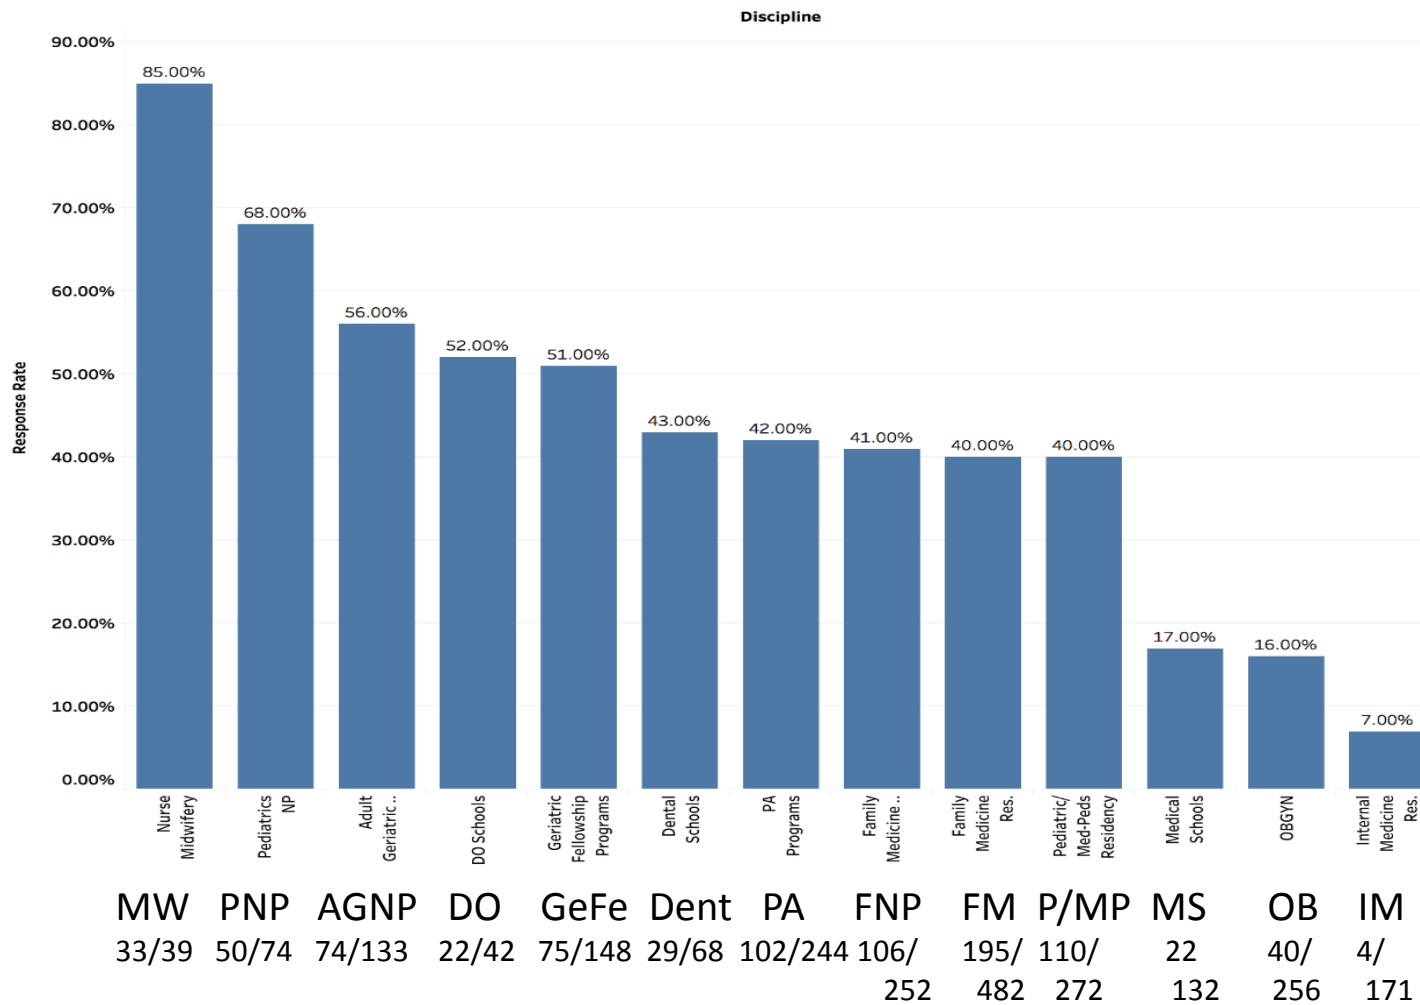

Center for Integration of Primary Care and Oral Health

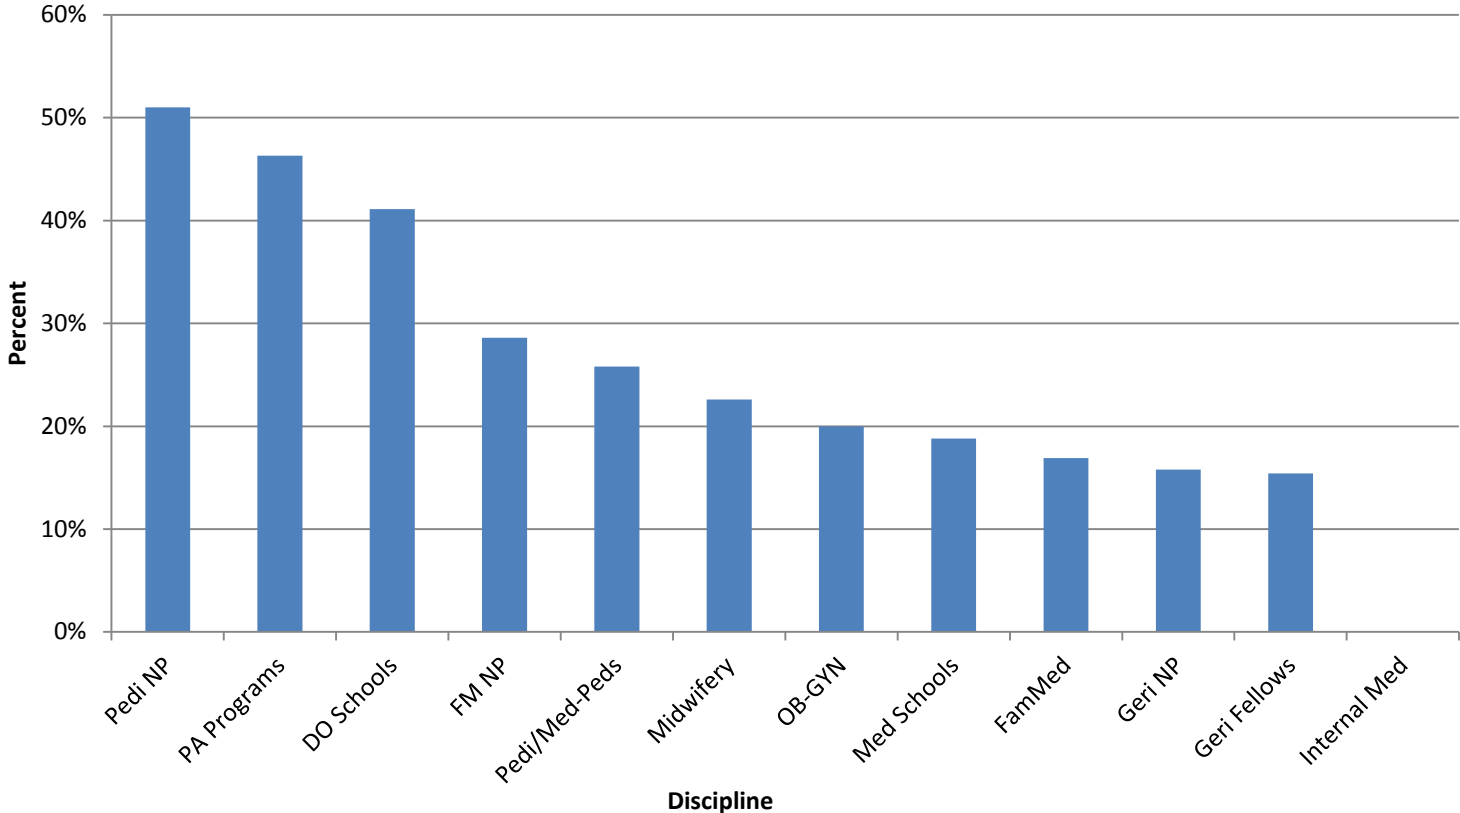

CIPCOH serves as a **national resource for systems-level research on oral health integration into primary care training** with special emphasis on training enhancements that will train primary care providers to deliver high quality, cost-effective, patient-centered care that promotes oral health, addresses oral health disparities and meets the unique needs of all communities.

Christine Riedy, PhD, MPH (Lead PI); Russ Phillips, MD; Hugh Silk, MD, MPH (Co-PIs)

Survey Response Rate

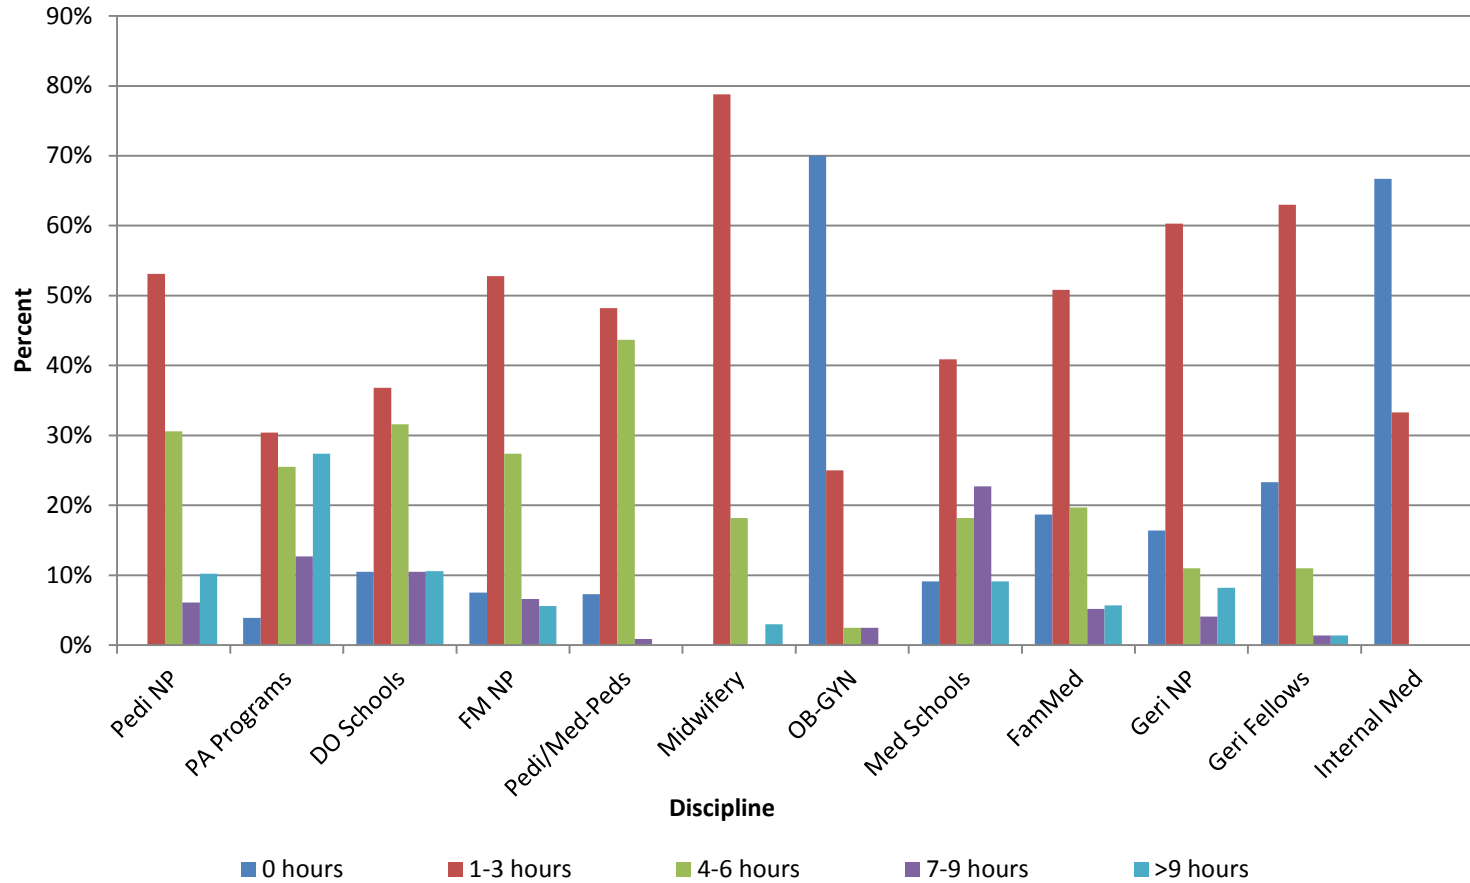

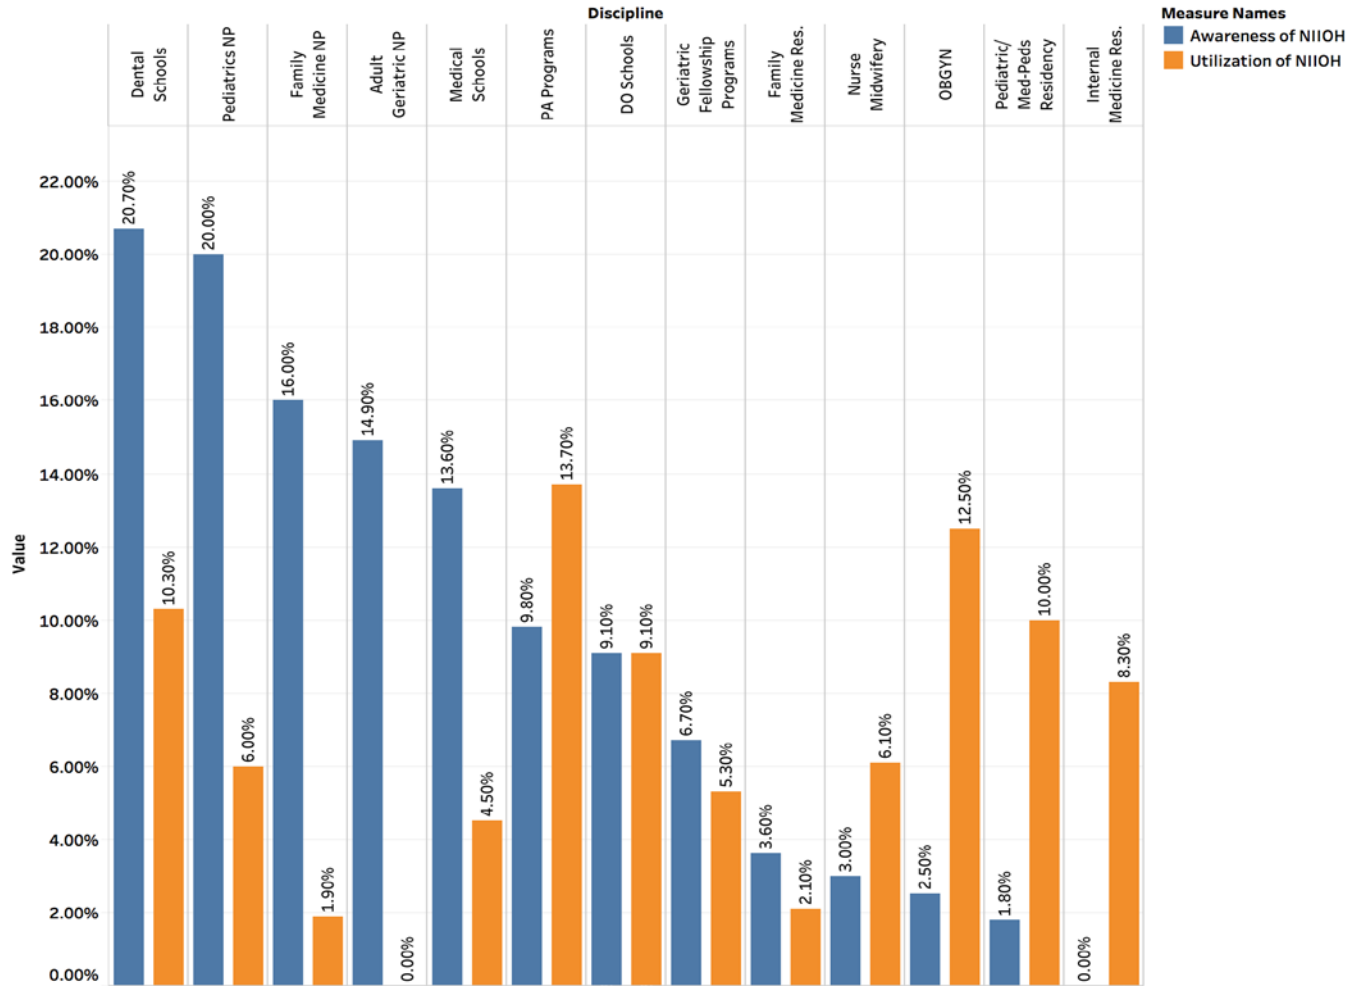

Program Director's Satisfaction with Graduates' Competence in OH

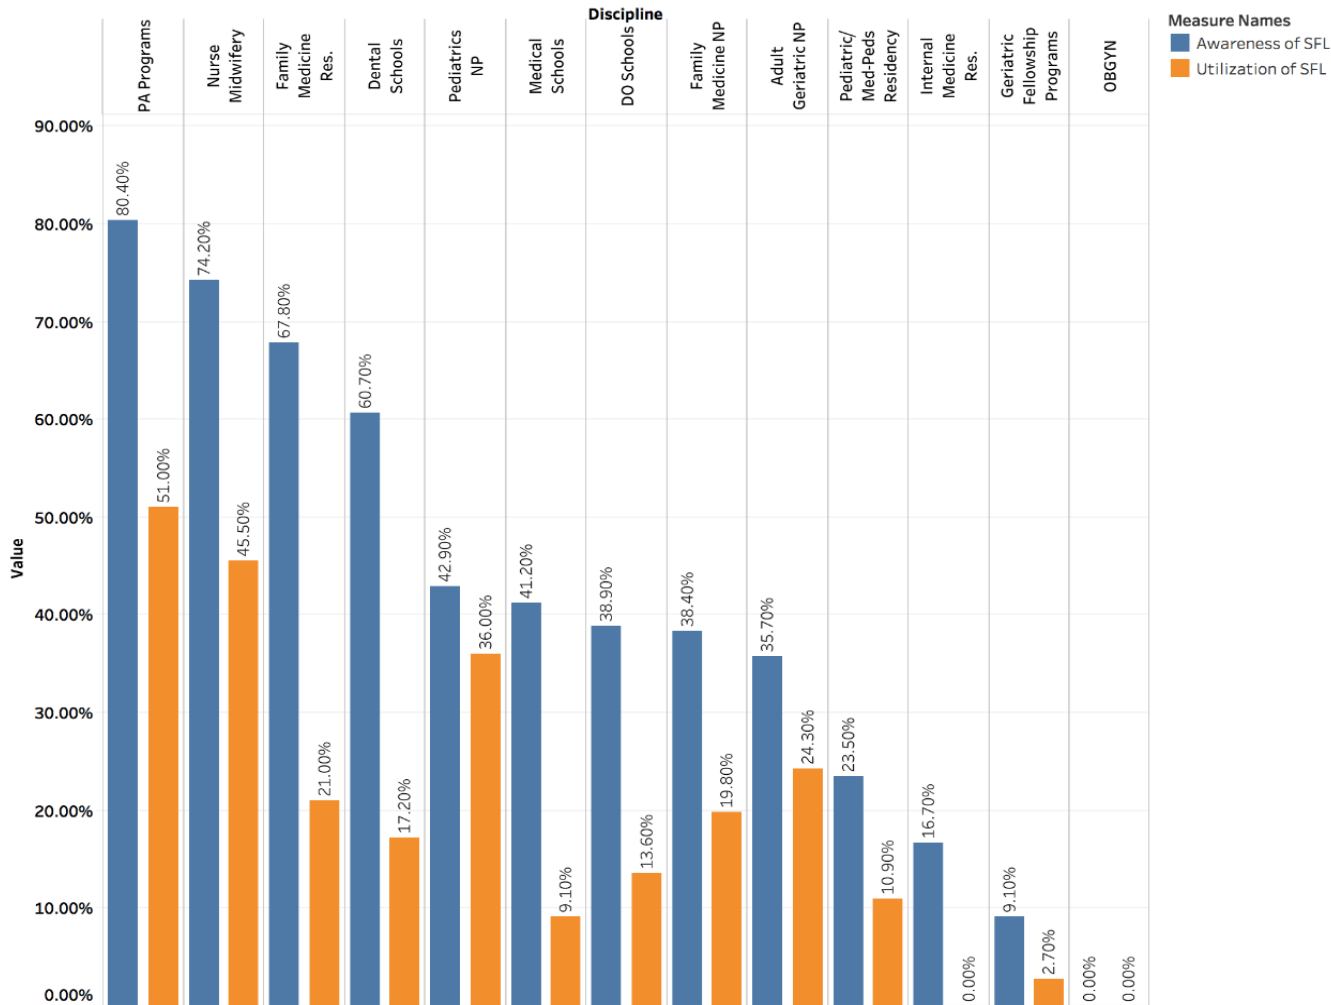

Percent is based on the responses to 'agree' and 'strongly agree' in one survey question

Hours of OH Curriculum

Smiles for Life Awareness and Utilization
